

LN SERIES

## Benefits

Hassle free operation with the most reliable fit & forget product on the market

Increased payload with lightweight Edbro technology

2 hour reduction on fitting time with combined ram and tank assembly

Optimum operator safety with a proven track record of risk-free operation and built-in burst valve protection

## Features

Proven design technology ensures ultimate reliability in operation

Combined ram and tank design reduces equipment weight

Hydraulic valve mounting is direct to the base of the tank reducing the number of kit components and protecting the valve from the elements

In the event of a burst pipe, built in safety features prevent the ram from dropping suddenly

The LN Series of bore-seal hoists for 4x2 vehicle applications from 3.5 - 10 tonnes GVW.

Model code	Chassis GVW (tonnes)	Nominal body length (metres)	Oil capacity (litres)	Average kit weight incl. oil (kg)	Power source
1SEC	3.5 - 6	3.6	10	95	Electric power pack
2LNC	7.1 - 10	4.3	15	157	PTO & pump
2SCC	7.1 - 10	4.3	18	165	

*Oil capacity refers to swept volume cylinders  
Actual weights vary according to chassis installation*

## Proven Reliability

With over 50,000 units on the global market the Edbro LN Series has proven its fit and forget reliability in some of the toughest operating environments.

Unique cylinder technology allows Edbro cylinders to be stronger, more durable and lighter in weight for the ultimate combination of maximised payload and a product you can trust to last the lifetime of the vehicle.

The most popular product on the market in its class, specified by many large rental companies and local authorities, the LN Series from Edbro continues to set industry standards.
